On behalf of Glen House Resort we would like to thank Peter Gauthier of Secoy Consulting for services provided. His successful project is complete and continues to save us money every day five years later.

We engaged the services of Secoy to help manage our banking relationship, and supply accurate current financial information so that a better financial understanding of our businesses could be given in a timely manner.

Peter helped our in house staff reformat our monthly statements to match our year end financials.

With this done we were able to establish "benchmarks and milestones" and budget to these targets and track progress on monthly projections within a five year plan.

As a former commercial banker/lender Peter understands lending criteria for various applications and more importantly the sources for funding within and outside conventional banking systems.

Secoy Consulting shopped the market on our behalf and ultimately moved our accounts to another bank to achieve savings benchmarked within our long term plan.

As a small business within a challenging lending sector in Eastern Ontario we highly recommend Mr. Gauthier's services to effect change in the right direction for your organization.

We found his approach very direct and he was willing to do the work with us and display only necessary information in a format understood by interested parties that he approached in advance.

Yours Truly,

David Seal 
C.E.O. Glen House Resort and Smuggler's Glen Golf Course
