RE: SECOY CONSULTING GROUP

During 2011, our Company was looking to change our banking arrangements and we were put in touch with Secoy Consulting Group.

Secoy Consulting consolidated our various corporate and financial reports into a Standard Presentation Package which formed the basis for submission and initial reviews by the Financial Institutions.

Upon review of these responses, Secoy Consulting then undertook the preliminary negotiations with the Banks and presented our company with the best offer that meshed with our needs.

Their attention to the detail of the Presentation Package and subsequent follow-up with the Banks resulted in Measurements International making other banking arrangements that satisfied our needs.
