

November 4, 2013

We initially contacted Peter at Secoy Consulting Group Inc. as we were interested in possibly expanding our building and wanted his opinion towards borrowing money. Peter looked over our financial statements and advised us on many ways to improve our operations. We explored and solved our borrowing options, we went paperless for accounts payable and receivable which reduced time and costs. We were unhappy with our bank and changed banks with Peter's help. Secoy also introduced us to a new accounting firm that specializes in Small Business Accounts just like ours. We have been thrilled with all of the changes and all results have been very positive. At one meeting Peter even gave us great advice on a trip that we were contemplating taking, definitely a full service provided! We enjoyed working with Peter very much and he continues to touch base with us periodically to see how we are doing.

Thanks Again Peter!

A handwritten signature in black ink that reads "Kevin & Linda DeMille". The signature is written in a cursive style.
